STRATEGIC PLAN CRITICAL SUCCESS FACTORS:

- Engaged and Connected Residents
- Efficient, Responsive, and Effective City Services
- Beautiful, Preserved, Single-Family Residential Neighborhoods

BACKGROUND:

Stephen Gleason, the owner of 1380 Circle Drive, filed this appeal of the Planning Commission's approval of a Design Review Case ("DRC") 17-08 concerning the development of a residential project on 1400 Circle Drive. The project would include a two-story, six-bedroom house with a basement, and an attached four-car garage. A Design Review action is required for new or replacement residential structures (SMCC 23.15.03B).

On February 28, 2018, the Planning Commission held a public hearing on the project, after which it determined that the required findings could be made and approved the project. Subsequent to this decision, the property owner at 1380 Circle Drive, filed this appeal.

At the April 11, 2018 City Council meeting, staff presented the Council with the options in handling the project on appeal. Pursuant to the Sections 23.15.10 of the Code, the City Council may do one of the following:

A. Affirm the action of the commission; or

B. Require a summary of all evidence upon which the commission made its decision; after receiving such evidence, the council shall take such action based on standards contained in section 23.15.08 of this article as, in its opinion, is indicated by such evidence alone; or

C. Refer the matter back to the commission, with or without direction; or

D. Instruct the city clerk to set the matter for hearing within forty (40) days before itself. At such hearing, it shall hear and decide the case de novo. Such hearing shall be conducted in the manner and with the notice herein prescribed for the commission.

At the conclusion of the meeting, the Council moved to approve option D, to set the appeal for public hearing within 40 days.

PROPOSAL:

The applicant requests permission to construct a two-story residence with basement containing six (6) bedrooms and an attached four (4) car garage. This requires one design review actions pursuant to City Code Section 23.15.03B.

DESIGN REVIEW NO. DRC17-08 – New Residential Structure

This project was first presented to the Planning Commission on September 27, 2017 and the project scope included a seventh bedroom in the basement and a front yard fence and gate. At that hearing, the Planning Commission denied the project due to the failure of meeting the design review conditions. The Planning Commission also discussed the significance of the original Architect, Robert Finkelhor. Subsequent to the denial, the applicant submitted a timely appeal of this decision to the City Council. At the City Council meeting held on December 13, 2017, the City Council remanded the project back to the Commission to allow for the review of the new information. The new information included a historic assessment of the property and design modifications to the proposed house.

- General Plan: Estate Residential 0-2 du/acres. The proposed project is consistent with the goals and objectives of the General Plan. The proposed project maintains the appropriate mass and scale as compared with the residential neighborhood.
- Zoning: R-1, Area District 1.
- Location: The subject property is located on the north side of Circle Drive between Rosalind Road and the Circle Drive bridge.
- Existing Use: Two-story single family home with an attached three-car garage.
- Proposed Use: A two-story house with an attached four-car garage
- Surrounding Uses: Adjacent land uses include single family homes in R-1, Area Districts 1.
- Environmental Determination: The project is categorically exempt for the California Environmental Quality Act (CEQA) pursuant to Government Code Section 15303(a), New Construction or Conversion of Small Structures.

Historic Assessment Findings:

The owner of the subject site commissioned the assistance of Tim Gregory to prepare a historic evaluation of the property and the original Architect, Robert Finkelhor. The property was evaluated using the National Register of Historic Places, California Register of Historic Resources and the City of San Marino criteria. Page 11 of the Historic Assessment finds that Robert Finkelhor is not a notable architect. According to the report, Robert Finkelhor “remains almost completely undocumented in architectural research sources and index.” “Finkelhor did not have a significant style that would make his houses easily identifiable visually, unlike those by such top-tier architects as Wallace Neff and Paul, whose works are recognizably consistent quality. In addition, “It should be mentioned that Finkelhor concentrated his work in the west side of Los Angeles Basin and had little impact on the local scene, with 1440 Circle Drive being his only design documented in San Marino thus far.”

With regards to the home, it was found that the “design features of 1400 Circle Drive do not surpass in quality, distinctiveness, or detailing those of the many other more modest Italian Period Revival of its type still extant in the City of San Marino.” It was also found that due to a significant addition to the house in 2006, the home has lost any integrity it may have once had.

Due to these findings, staff maintains that the project remains categorically exempt from CEQA pursuant to Government Code Section 15303(a), New Construction.
