

## Public Input on Priority Initiatives for Fiscal Year 2020-21

The budget process for Fiscal Year 2020-2021 is currently underway, and City Council is considering what special projects – or priority initiatives – staff should dedicate significant time and/or financial resources to (in addition to their standard operating tasks and smaller budget items) next year.

City Council has identified 9 initiatives to consider further. Before making any final decisions, they are interested in hearing what initiatives community members think are the most important.
