

These policies apply when children request their barcodes or require a temporary card to use the computer

1. A parent with ID can obtain the barcode number for their child.
2. A child with school ID (picture) can obtain their barcode number if they also can recite their address and phone number.
3. A parent with ID can obtain a temporary card for THEIR child if for some reason the child does not have a card.
4. A child doing homework can obtain a temporary card. They MUST be doing homework; the temp card is NOT for games.

This means that a supervisor coming in with multiple children cannot obtain a number of temporary cards for the children to use to play games while they are visiting the library.
